

Global Aviation Logistics

When every minute matters, call the aviation logistics specialists

■ Sterling: a leader in AOG and aerospace logistics

AOG solutions to keep downtime to a minimum: Next Flight Out, Next Drive Out, Air Charters, Hand Carry, Priority Air & Ground Freight and Dangerous Goods Shipping.

■ Reverse logistics

Designed to provide efficiencies and reduce turnaround time by keeping serviceable and non-serviceable components moving within your supply chain.

■ Dangerous goods shipping

IATA trained specialists are on call to provide assistance with classification, documentation and packaging to meet regulatory requirements.

■ Documentation, customs, VAT and GST consultation

We'll provide consultation and support with customs clearance and brokerage, including regulatory compliance and documentation preparation.

■ Quality assurance program

Comprehensive Quality Program with a mission to deliver zero defect performance and outstanding customer satisfaction; ISO 9001:2015 accredited.

■ Global network and reach

Our logistics service partners understand local rules and regulations, and can expedite delivery to anywhere in the world – even to the most remote locations.

■ QuickOnline: ship and track online

An interactive tool that provides real-time information, prepares shipping documentation and manages your logistics program.

■ 24/7/365 customer service and solutions team

Our highly-trained logistics specialists provides customized solutions with pick-up and delivery around the clock.
